PREVENTIVE CARE SERVICES ARE KEY FOR MEMBERS

At Coventry Health Care, we encourage members to receive preventive care services. The Patient Protection and Affordable Care Act (PPACA) provides for specific preventive services when provided by participating providers to be covered at 100%. The Henrico County Health Plan already provides coverage for many of those preventive services. Starting on January 1, 2011, there will be additional services covered at 100%.

COVERAGE FOR PREVENTIVE SERVICES

Here are some examples of the preventive services that will be covered with no copay, coinsurance or deductible.

Preventive Care Claims

We process claims based on your provider's clinical assessment of the office visit. If the provider files a claim with preventive care only, the claim will be covered in full. If the primary reason for your visit is seeking treatment for an illness or condition, and preventive care is administered during the same visit, the office visit copay will apply. If the primary reason for your visit is seeking preventive care and treatment for an illness or condition is administered during the same visit, the office visit copay will apply.

Certain screening services, such as a colonoscopy or mammogram, may identify health conditions that require further testing or treatment. If a condition is identified through a preventive screening, any subsequent testing, diagnosis, analysis or treatment are not considered preventive services and are subject to any applicable member costs.
